## Professional Summary

Motivated and detail-oriented Full Stack Developer with strong expertise in the MERN stack (MongoDB, Express.js, React, Node.js). Skilled in building responsive and dynamic web applications with efficient backend integration. Passionate about clean code, scalable architecture, and creating seamless user experiences. Seeking opportunities to contribute to modern web solutions and enhance technical expertise through real-world projects.

## Technical Skills

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, EJS

Backend: Node.js, Express.js, MongoDB, Mongoose, SQL, JSON

Tools & Others: Git, VS Code, Cursor, REST APIs, Vibe Coding, AI APIs, MongoDB ORM

## Internships & Experience

- Full Stack Developer — Cognifyz Technologies (Remote)  
Oct 2025 – Nov 2025
  - Built a complete CRUD web application using the MERN stack, implementing authentication and database integration.
  - Completed 8 development tasks including creation of NextGen Studio landing page, Feedback Form with JSON data handling, and several micro-projects.
  - Focused on performance optimization, reusable component design, and responsive layouts.
- Web Developer — ShadowFox (Remote)  
Nov 2025 – Nov 2025
  - Developed three full stack projects, including a personal portfolio using React, Node.js, and Express.
  - Created a Team India Cricket Page that dynamically fetched data from APIs and displayed real-time updates using Mongoose and Express.
  - Collaborated on a team full stack project, contributing to both frontend and backend integration.

## Projects

- 1. TODOLER
  - Tech Stack: React, Tailwind CSS, Node.js, Express.js, Mongoose, MongoDB ORM, Axios, REST API
  - Developed a user-specific CRUD Todo application with secure login/signup functionality.
  - Implemented separate Todo storage for each authenticated user with full CRUD operations.
  - Integrated backend REST APIs with Axios for seamless data flow.
  - [Live](#) | [Frontend Repo](#) | [Backend Repo](#)
- 2. NextGen Studio
  - Tech Stack: Node.js, Express.js, EJS, Tailwind CSS
  - Built a server-side rendered landing page for an IT services company.
  - Implemented a contact page with backend form handling and server-side templating through EJS.
  - Designed a multi-section, single-page responsive layout.
